Dr. Heller's philosophy is to provide personalized spine care tailored to each patient's individual needs. There is no single tool or one procedure that is correct for each patient, he will take the time to determine what causes the patient's symptoms and recommend the best possible treatment too. It is capable of providing a complete series of spinal care including simple decompression, minimal access surgery, non-fusion technology, spinal fusion, and deformation correction. Regardless of the intervention, its goal is to maintain normal spinal alignment function, so as to prevent spinal related problems later in life. Dr. Heller's interests and concentration are adult spinal deformity (scoliosis, minimal blood sarcasm), minimal access surgery, SI Fusion, and complex cases (reviews). Checking the references 1 staff review in the office was rude and unhelpful Dr. Heller is probably a great doctor. His schedule team is the worst I've ever encountered in my experience of getting an appointment to see the new Doctor. Very unhelpful and rude. It is stressful enough to pass a medical procedure but is worse by a rude person on the phone. Mercy education should be provided to staff to deal with current and future patients. I can't imagine trying to get a follow-up appointment with this office. Your trust is our first priority we do not allow doctors or practices to remove reviews.
